COVID-19 Proverbs Place School Family Pledge

As a member of the Proverbs Place School Family, I (our family) pledge to follow the below guidelines and to inform the Proverbs Place Administration immediately if someone in our family has tested positive for COVID-19 or if there has been a known exposure to someone testing positive for COVID-19. I (we) agree to follow the guidance that is issued by licensing/health department/or other officials in regard to attendance at Proverbs Place which may include a period of quarantine or proof of a negative test following the expected incubation period.

With the new variants emerging such as the Delta Variant, we must remember that the virus is still in our communities, and therefore remain cautious as outlined below. All Virginians are **encouraged** to comply with the statewide face covering suggestion in indoor public spaces, and Virginians are strongly encouraged to:

- continue teleworking if possible
- wash hands regularly
- maintain six feet of physical distance when outside of home
- get tested immediately if you have COVID-19 symptoms

In addition, I (we) pledge to:

Wear face coverings when transferring children to and from care in “Kiss and Ride,” regardless of vaccination status.

Follow rules regarding access to grounds and buildings. Only enter through the front door/ past Welcome Area if authorized. If authorized to enter the building, face covering **MUST** be worn by all adults regardless of vaccination status.

Following travel outside of Virginia or the Washington metro area into an area of high COVID-19 rates, self-quarantine for CDC recommended time period or provide a negative test result following the expected incubation period.

In good faith for the safety and well-being of our Proverbs Place School Family, I (we) agree to the above conditions. (Required for all adults who are authorized for pick up or who regularly interface with the school family.)
